-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

1. Claims 1-3 and 6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kojima et al. for reasons set forth above and further in view of Sugiyama et al. (6,773,770) for reasons of record and for reasons given below.

2. Applicant's arguments filed 10/24/05 have been fully considered but they are not persuasive. However, rejections over Kasahara et al. and the double patenting rejection have been withdrawn in view of amendments to the claims and filing of an acceptable terminal disclaimer. With respect to Kojima et al. the rejection has been maintained. It is noted in response to arguments at the bottom of page 9 that the claims are not limited to inclusion of the resin of Formula 2. It is also noted that the reference clearly suggests inclusion of styrene in the resin copolymer in ratios that overlap with those of the instant claims. The I/O value of styrene is inherent in the material. The examiner has considered the experimental data in applicants' specification but finds this data to be insufficient to establish unexpected results. Since styrene is hydrophobic in character, inclusion of this monomer in greater amounts could be expected to increase resistance to blurring by one of ordinary skill in the art. In addition, the prior art teaches the existence of a connection between I/O value and bleeding of images (see for example 6,635,320). Consequently, results of the specification are not unexpected. Finally, the examiner did not find a Declaration under 37 C.F.R. 1.132 in the file. Consequently, the Declaration has not been considered.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye, can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
